

# SKILL DEVELOPMENT PROGRAM FOR PHARMACY GRADUATES WITH INDUSTRY RELEVANCE

## B. V. PATEL PERD CENTRE, AHMEDABAD

### SUMMER INTERNSHIP PROGRAM

(1<sup>st</sup> MAY-30<sup>th</sup> JUNE, 2020)

### ABOUT

Equipped with the latest and the best R&D facilities, highly qualified scientific & technical personnel PERD centre regularly undertakes educational training and developmental activities. PERD centre has initiated this training program for graduate/post-graduate students in cutting-edge areas of pharmacy. PERD centre will share its expertise with the students to empower them with the required skill set to meet the pharmaceutical industry requirement. Faculty of PERD centre will host the interns in their laboratory for a period of 6-8 weeks. The interns will be working on a objective driven project and will submit a dissertation and will be awarded with the certificate at the end of the program. The interns will be exposed to highly sophisticated instruments viz., High pressure homogeniser, DSC, Probe sonicator, Malvern zeta sizer, Spray drier, Fluidized bed processor etc that are commonly used in the pharma industry. The students will be trained in different aspects of formulation development viz., Conventional formulations and Novel complex formulations (Liposomes, Microemulsions, NLCs, SLNs etc)

### ELIGIBILITY

Pharmacy graduate /post-graduate (currently enrolled / passed). Upto 30 candidates will be taken on first cum first basis

### FEES

A nominal fees will be charged from the students to cover the expense of chemicals / consumables during 6-8 weeks.

### APPLICATION PROCEDURE

Interested candidates are requested to submit their CV latest by April 15, 2020
